TITLE: Accreditation Predicament Escape Room!	**AUTHORS**: INACSL22 Escape Room Workshop Attendees
THEME: Hospital Room	**DATE**: June 2022

STEM: Joint Commission will be here in 30 minutes, the binder with all the info for them is locked in the office of the director who is out sick with COVID today and can't be reached…Your task is to identify the patient safety violations in this room to determine the 3-digit code (office keypad) and save the day!
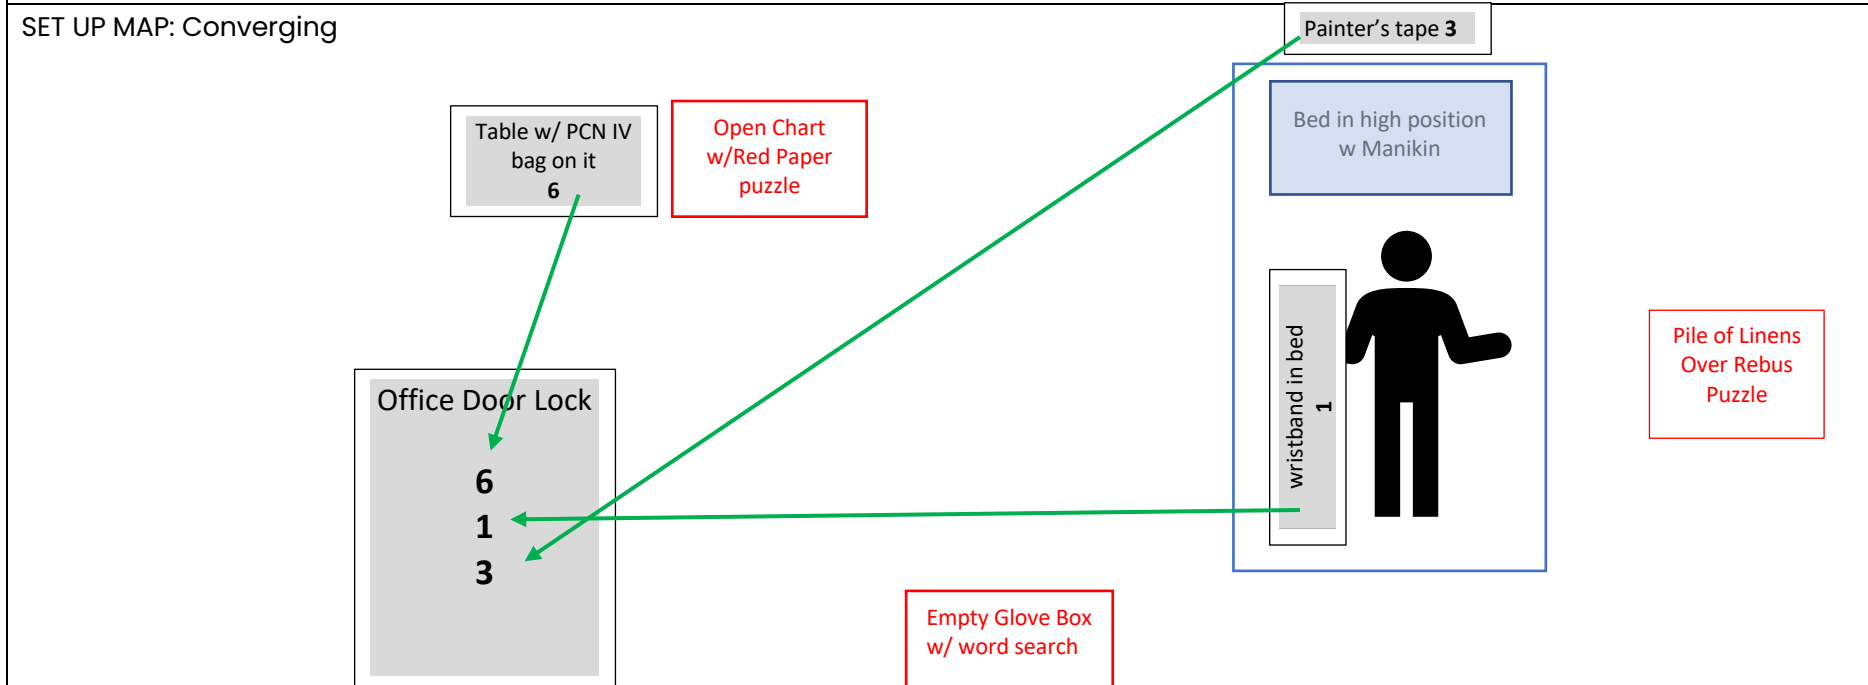

LEARNING OBJECTIVES:

Identify all patient safety violations in the environment.

Utilize effective communication skills when working with your team.

Demonstrate collaboration while problem solving.

LEARNERS: Nrsg students/ Nrsg Faculty	**GROUP SIZE**: 5 learners at a time	**MISC:** Pre-sim work…didactic on National Pt Safety Goals
SET UP TIME: 10 minutes	**RUN TIME:** 15 minutes	**DEBRIEF TIME:** 15 minutes

EQUIPMENT LIST:

Pt Wristband and allergy band	Empty Glove Box	Physical Chart
Linens	Manikin in hospital bed	Red Plastic sheet (decoder)
Painter's Tape	IVPB Penicillin bag w/ Pt name on it	Linen Hamper

SET UP MAP: Converging

LOCK/PUZZLE DESCR.	LOCATION	SOLUTION	CLUE(S)	LEADS TO
Wristband with a small piece of painter's tape with the number **1** written on it	In patient bed next to arm	Put wristband back on patient wrist after confirming identity	"What is the patient's name?"	One of the final lock digits
Piece of painter's tape with the number **3** taped onto the wall hidden behind the headboard	Bed in high position	When bed is lowered the tape is visible	Patient states, "Why am I sitting so high up?"	One of the final lock digits
PCN listed as allergy on wristband/ PCN IVPB bag on the table with the number **6** on a piece of painter's tape on the back	Patient wristband	Notify charge nurse that the patient has a med in his room that he is allergic to	Pt asks "when will I be receiving my antibiotic"	One of the final lock digits
DISTRACTORS THAT STILL SHOULD TO BE SOLVED				
Red Paper Puzzle with the following message: What is the website to look up the Joint Commission Patient Safety Goals? _ _ _ _ _ _	Lying in the Open Chart with the corner visible within the chart	Close the chart, return it to the nurses' station and solve the puzzle with the red plastic decoder that was placed somewhere in the room	NA	Distractor
Pile of linens on the floor with a Rebus puzzle underneath (tape it to the floor if you think it may be overlooked among the linens) [PUZZLE of your choice using the rebus generator…ie a patient safety goal]	Pile of linens on the floor with a Rebus puzzle underneath	1. Remove linen from floor and place in linen hamper 2. Determined by your choice of Rebus puzzle content	NA	Distractor
Empty Glove box with word search of PPE related content or terms (max 8 words to make sure too much time is not used on this step)	Glove box holder	Determined by your choice of search words	NA	Distractor
FINAL ESCAPE **(3 Digit Lock printed on a paper)**	Taped to the closed "office" door	**6-1-3**	Which safety violations are "sticky"?	Successful escape!

GROUND RULES: Safety First

Electricity is REAL Don't look in outlets!!

Don't climb on stuff Everything is within reach!

The room isn't locked If you need to leave, do so!

Alarms are REAL Obey any evacuations...

Phone/Device Use Is PERMITTED to solve clues

No Excessive Use of Force DONT BREAK OUR STUFF!

This experience is TOP SECRET.... Don't tell other groups!

SAMPLE DEBRIEF QUESTIONS:

How are you feeling?   The objectives were to _ _ _. How did that go? Who, if anyone, emerged as a leader? How was that determined? What did you learn about your teammates in this experience?   Describe a moment when you were a little stuck. How did you get unstuck?   Describe a time where you did or didn't speak up. Why or why didn't you?   What can you apply in your communication and teamwork both personally and professionally?
